## Let's Make EU Policies More Youthful!

The European Youth Forum (YFJ) encourages each Member of the European Parliament to sign the written declaration calling on the European Union Institutions to:

- Listen to young people when developing policies that affect them, especially education and lifelong learning, employment, social integration, health, youth autonomy, mobility, fundamental rights and non-discrimination;
- Underline the cross sectoral nature of youth policy;
- Ensure genuine dialogue between young people and their organisations, and the European institutions.
